

# Material Safety Data Sheet

**CORBIN** Manufacturing & Supply, Inc.  
PO Box 2659  
White City, Oregon 97503 USA

Emergency Phone No. 503-826-5211  
FAX No. 503-826-8669

## Section I. Identification

Trade Name: Corbin Bore Lap

HMIS/NFPA Hazard Identification System:

Health: 0                      Reactivity: 0  
Flammability: 1              Protective Code: A

Threshold Limit Value (TLV): No TLV has been established for this product.

Printed Date: 04/21/92

## Section II: Hazardous Ingredients

None

## Section III: Physical Data

Boiling Point: 212°F.  
Vapor Density: n/a (Vapor pressure = 0.01 mm Hg.)  
Evaporation Rate: same as water  
% Volatile by Volume: 40-65%  
Specific Gravity: 1.40  
Solubility in Water: Emulsifiable

## Section IV: Fire and Explosion Hazard Data

D.O.T. Category: Not Regulated  
Flash Point: 186°F., T.C.C.  
Extinguishing Media: ABC, dry chemical  
Unusual Fire and Explosion Hazards: None

## Section V: Reactivity Data

Stability: Stable  
Conditions to avoid: Keep from contact with oxidizing materials.  
Hazardous Decomposition Products: Products of incomplete combustion can include CO, CO<sub>2</sub> and dense smoke.

## Section VI: Health Hazard Data

Threshold Limit Value: 500 ppm  
Effects of overexposure:  
Eyes: Extreme irritation - may cause minor burns or rash  
Skin: Moderate irritation - may cause rash. Causes drying and defatting of skin.

## **Material Safety Data Sheet, Page 2**

### *Section IV, continued...*

Inhalation: Minimal irritation - may cause itching or discomfort.

Ingestion: Moderate irritation - may cause rash.

#### Emergency and First Aid Procedures:

Eyes: Rinse with large quantities of water for 20 minutes while holding eyelids apart. After washing, add 1 drop Benoxinate (Novesine) at 0.4% into the eye. Never introduce ointment or oil into the eyes without medical advice. Contact a physician immediately.

Skin: Remove contaminated clothing. Launder before reuse. Rinse affected area for 20 minutes with large quantities of water. Apply lanolin ointment to the affected area.

Inhalation: Remove victim to a quiet, cool, well-ventilated area. Administer artificial respiration if necessary. Keep victim quiet.

Ingestion: Induce vomiting by administering a glass of warm salt water or by sticking finger down throat, followed by milk or water. Never administer anything by mouth to an unconscious person.

Carcinogenicity: N/A

### **Section VII: Spill or leak procedures**

Spill clean-up procedure: take up spill with sand, earth, sawdust, or other adsorbant.

Flush spill area with detergent and water.

Waste disposal method: Dispose of in accordance with state, local and federal regulations, as you would with any bio-degradable organic fat or oil.

### **Section VIII: Special Protection Information**

Respiratory protection: No special respiratory protection is required under normal conditions.

Ventilation: Local mechanical exhaust.

Protective gloves: Chemical resistant gloves should be worn for prolonged exposure (rubber or BUNA-N)

Other protective equipment: Goggles and face shield, rubber apron and boots.

### **Section IX: Special Precautions**

Precautions to be taken in handling and storing:

Keep away from heat or open flame. For industrial use only. Store in a cool, dry area. Keep container closed. Keep out of reach of children. Do not contact skin or eyes. Do not take internally. Containers when emptied may be hazardous. Protect from contamination with foreign materials. Store at temperatures below 120°F. and above 32°F.

Other precautions: Do not transfer into unmarked drums.
