

New Book by Dave Corbin

How to Promote and Successfully Run A Custom Bullet Business (as well as many other kinds of small businesses).

Contains 224 pages of condensed experience from over four decades helping thousands of people turn their shooting hobby into a source of income... instead of an expense! Most people have good ideas that could be turned into income if they knew how to find customers, promote and market without excessive cost. This book covers it all in detail, including such chapters as “*The Art of Press Releases*”, and “*Why Merit May Not Matter*”. Written continually over a 13-year period covering economic high and low times, the book includes studies of both successful and struggling businesses which made the same products in the same areas, but had vastly different results depending on specific marketing techniques.
